Managing Director
NeuroSystems Architecture
Level 50, 120 Collins Street,
MELBOURNE
Vic 3000

Dear Mr Etna

RE: 20KM2 URBAN FRAMEWORK PROJECT - DEZHOU P.R.C.

As a valued member of the Australian Urban Systems Cluster (AUS), this is to confirm the appointment of Neurosystems as the project manager and lead agent for the development of the recently identified project opportunity, adjacent to the city of Dezhou in Shandong Province China.

This opportunity has resulted from your active involvement in the Government sponsored September 2008 Industry Capability Mission to China, and the subsequent reciprocal visit to Melbourne by senior representatives of the Dezhou Government where you delivered a timely presentation on your sustainable/green building design capabilities, which impressed the visiting delegates.

I appreciate that the lead time for this project is very tight, but if you can encourage other AUS members with the appropriate skills and capabilities to form a cohesive project team and forward an expression of interest to the relevant authorities, I will provide as much support as I possibly can.

Yours sincerely,

Dom Tassone
Senior Export Manager
Project Director, Australian Urban Systems (AUS)
Department of Innovation, Industry and Regional Development
State Government of Victoria Australia.

15 January 2009

Neurosystems International
Level 50/120 Collins Street
Melbourne 3000

Dear Frank

Thank you for the application for your company Neurosystems International to become members of the Australian Urban Systems (AUS) Cluster, an export initiative under the Victorian State Government managed through the Department of Innovation Industry and Regional Development.

Your application has been successful and we look forward to your active participation in future projects under the AUS brand.

AUS is committed to a practical approach to sustainability drawn from the Melbourne experience and has been able to engage with urban development proposals at planning and policy level, before projects become defined and parcelled into individual disciplines. This can be achieved under the auspices of government to government relationship and AUS has now commenced a number of policy level engagements with China and a number of Emirates in the UAE.

AUS, through the Industry Cluster is committed to sustainable urban development from planning, design, technology and communications, engineering, economics, investment, infrastructure and environmental sciences.

Further information and details of other member companies can be found on the AUS website www.ausvictoria.com.au. We encourage you to provide further information on your company for inclusion on the website to be forward to Margaret Brett at Level 35, 121 Exhibition St or Margaret.brett@diird.vic.gov.au.

If you have any further questions please do not hesitate to contact me (9651 9182) or Margaret Brett (9651 9460).

Yours sincerely

Dom Tassone
Project Director
Australian Urban Systems Cluster (AUS)
